

WSÁNEĆ SCHOOL BOARD EDUCATION RESTART PLAN

The WSÁNEĆ School Board developed a revised version of the Ministry of Education's five-stage approach for resuming in-class instruction as a measured way to align with BC's restart plan. Each stage will be guided by current health and safety guidelines and the WSÁNEĆ School Board's COVID-19 policies and procedures. The five-stage approach allows the WSÁNEĆ School Board to maintain a healthy and safe environment for all students, families and employees while focusing on continuity of learning. This document is intended to provide a framework for what a gradual return might look like.
